Back to the basics
Back to the start
Back before we grew apart
No more lies
No more compromise
No more turmoil
It's my life
There came a time in my life
When I could determine wrong from right
Like day and night
To choose which crusade to fight
Now those lines have been blurred
And I've been crushed and conquered

Back to the basics
Back to the start
Back before we grew apart
No more lies
No more compromise
No more turmoil
It's my life
Get out of my life
Back to basics
Back to the start
I won't let these words fall on deaf hearts
No more lies no more compromise
