The war is already won
The goal has been achieved
It's the battles inbetween that count
Take my hand we will fight this together
What good is brotherhood
If it's not bonded by something?
Our brotherhood is bonded by the blood
Bonded to keep this hope alive
What good is this brotherhood

If there is not one true bond?
We need you almighty God
Heal us of our brokenness
I give you my life almighty God
Just one drop of the blood
Will heal your brokenness
He offers eternity
All you have to do is give him your life
