"On The Brink Of Total Destruction"

On the brink of total devastation
You will beg for your life
On the brink of total destruction
You will believe (in heaven and hell)
Doubt is not a luxury
You can afford
We're on the verge
Of a change
Change in command
You've played the fool

The fool until now
This storm could wipe us
Wipe us all out
Or raze us to the ground
Erase all doubt of danger
We sow the seeds to suffer
You'll only know one fate
You'll see total destruction
