closer to me, use your body, hypnotize me,  
the way you move controls me (x2)

she makes my body weak, oh yeah baby,  
when she's around, i can hardly speak,  
oh what she does to me, oh lord oh

oh the things she,does, the way she, moves,  
the things she says to me, drives me, up, oh  
up the ,wall, and makes me , so crazy. now i'm,  
here, and she is, there, staring just, at me. all  
i, want to tell this, girl. is come close to me

chorus (x2)

chorus (x2)

the way she moves is like slow motion from a  
movie scene. she's coming cross the room and  
soon she will be next. she touched. she's got
