

In Fear And Faith "The Taste Of Regret"

Come out of hiding, show us your face.
Don't be afraid of what they'll say

Just close your eyes it'll all be ok.
The damage they've caused, is it worth it all?

What's taken away is the price they pay.
For goodness sake let it fade away.
Let go of the past, that tore you apart.
Embrace this chance for a brand new start.
We weren't meant to be one of them,
But to live life, love and give.
They can't fool us anymore.
We're far too clever.

We'll leave them with their regrets.
[To feel the pain]
That's what they get, we're even now!
[Let's walk away]

Come out of hiding, show us your face.
Don't be afraid of what they'll say

Just close your eyes it'll all be ok.
The damage they've caused, is it worth it all?

This is what real life tastes like.
So open your eyes and dive right in.
You know you've never seen a love like this...
Buried inside where I can't see.
Through these bars my future lies.
You love this life, but not through my eyes.
[Where I can't see]
Our time is up, no not yet!

We'll leave them with their regrets.
[To feel the pain]
That's what they get, we're even now!
[Let's walk away.]

Oh!
Don't close your eyes, it will all pass you by.
