I'm on your side
Always see through your eyes
But if I leave tonight
I'll leave here in two minds

Well the lights out
I'm so awake and somehow
I can't convince myself,
Just stop and walk out

So
So I
I've been wondering why

Why would you play these games
If I don't have the choice anyway
I been through black and blue still you act like it's old
but it's new

Brief advantage
But wound up empty handed
The fucking note I left reads nothing like I planned it

And it's been this way for so long
I can't just leave us both knowing we've been there

So
So I
I've been wondering why

So why would you play these games
If I don't have the choice anyway
I've been through black and blue
Still you act like it's old but it's new

I'll take my chances alone
Alone...
I'll take my chances alone
I'll take my chances alone
I'll take my chances alone

I'm on your side

Always was on your side

So why would you play these games
If I don't have the choice anywaaaaay!
Anywaaaaay!
Yeah

So why would you play these games
If I don't have the choice anyway
Cos I've been through black and blue
Still you act like it's old but it's new
You act like it's old but it's new

I'll take my chances alone
