Call me by my astral name
Breedin' fear through wordless tongue

Heavenly thirst
Unspeakable pain
Emptied from all human motion
Confront the faceless wrath

Beckonin' silent from a sphere behind space
Through twisted ruins of uncompleted dreams
Sights of towers reachin' for the moon
Clawin' at the skies, they gonna pull it down

Intensity
I feel the lava rushin' through my veins
Stars are reformin'
To enter the fourth dimension

Beyond all galaxies
Through timeless eons of frost

Unearthly hunger
Angels descent

We are enterin' dimensions behind space

Beyond all galaxies
Through timeless eons of frost
