It hurts to think can't get the sums together
Would you draw my bitterness
Make the pictures fade?

Could it be that I see what's beneath when we fall?
The truth in ever
I'm scared that I will be

The sentence is light
But my eyes see a different world
And all I do is turn into flames

Will time open my vault
New solution, I'm begging
Break the fuse that holds me back

The I is lost in me
But I am ready to give you the M
It might even be the E
As I begin to search for I
The I is lost in me

Distract, push me in another direction
This wall that I stare into it's getting old
Give me faith to reach for the new
Pull me apart and do me all over
I'll need a re-make
To make up for my mistakes

The I is lost in me
But I am ready to give you the M
It might even be the E
As I begin to search for I
The I is lost in me

What if I stop to care?
What if I let you fall?

What if I stop to care?
What if I let you fall?

The I is lost in me

But I am ready to give you the M
It might even be the E
As I begin to search for I
The I is lost in me
