"Move Through Me"

Consume the curse
That brings you down
The fading liar
[Incomprehensible]
Is there in front of you

You've decided to come
And reclaim your future
This is a call to arms
Unrequested a time

Feed the hunger
Climb on up
Repress the native
You are not alone
It's there in front of you

You've decided to come
And reclaim your future
Oh, this is a call to arms
Unrequested a time

Avoid the mold
Desperate you regress
Move through me
I'll be your tired

You were deciding to come
And reclaim your future
This is a call to arms
Unrequested a time
