Do angels fly higher in the dark?

Black is my mind when a new day has come  
Black are the tears when I cry  
Come here and take my hand, join this misery  
The fallen angel set us free

[BRIDGE]

Do angels fly higher in the dark?  
Do they crash down and fall apart?

[CHORUS]

Let's cut the wings away  
and the angel has fallen again  
Together in eternal flames  
Where the cold razor cares

[Repeat]

[OH OH OH OH OH thing]

I do not care if you want to hurt me  
Torture is ecstasy to me  
You cut my wounds so deep, even deeper than your's  
Like fallen angel without remorse

Yeah...

[CHORUS]

[BRIDGE]

[CHORUS X2]
