It started as a whisper
Now try to dodge this roar
Unified, the most forceful way to go

Waste this one?
It's up to you
We need this revolution

Destroy the pattern
Anything that separates
Across the times
Who dares to follow?

For years we wandered
These circles
Hold on to whatever
Lie gets us through

Design new latitudes
Find ways to channel bliss
Us defined is too fragile to neglect
Reroute to remain
Reroute to remain

Never want to look back in greed
Can I please
Have your attention?

There are mountains to cross
For all that are willing
There are never ending treasures
That awaits you

For years we wandered
These circles
Hold on to whatever
Lie gets us through

Design new latitudes
Find ways to channel bliss
Us defined is too fragile to neglect
Reroute to remain

Reroute to remain

Design new latitudes

Find ways to channel bliss

Us defined is too fragile to neglect

Reroute to remain

Reroute to remain
