The yesterday we loved
Speaks of tomorrow
The blood of man matters in time
Never taste the puss

We live from Monday to Sunday
But forget what it means
Then it comes, a closed fist
And we just started from Devil's rights

We'll call all your friends
Watch me throw down
From the need of vacation
We're speeding from triple hate and artifacts

We're still superiors
And as for understanding
Lie, rape, steal and murder
To make the night realize

Crush the system
Make your contributions mine
Pour out and will you get
This strong as they've become

You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles

Lie, rape, steal and murder
Smiling I plot your pain
Can I turn up the TV?
Exploding sympathy, farewell man
I trust we part our company

We're still superiors
And as for understanding
Lie, rape, steal and murder
To make the night realize

Crush the system

Make your contributions mine
Pour out and will you get
This strong as they've become

You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles

Lie, rape, steal and murder
Smiling I plot your pain

You sat in silence, hear a voice
How far are we ready to take this
You sat in silence, hear a voice
Before it all crumbles
