SHE... Walks the midnight hours

... Haunts these ancient woods

... Bleeds the sacred blood

Moans the hymns of Kassoithga

... Dress like autumn leaves

... Eyes as black as night

Stalking the lusts inside my slumber

Blinded by the cursed sun

Blinded by the spirits of light

Her curse now exiled to wander!

She stands the sentinel of this forest

She is guardian of the shadows

She fans the flames of pagan FIRE!
