Praise the bringer of fire
Curse the mountains above
Blasphemy
Godless act, cannibalize
Feast on children of god

Slit the throat. carve the meat. nocturnal x2
Is it this transformation that drives me insane?
Pleasing death painted vision
Nails turn claws, cell division

Mutate
True form
Godgiven lesson
She'd skin
Reborn
New found aggression

Human flesh on the table
Fire lit in his eyes
God of Gods,
Rid the crown, Clenching the fist
Wrathful retribution

Retaliation for what you've done
Vengeance for killing my every son
