Shimmering blue light  
Touches them slight  
And the movement of their bodies.  
Hiding the tears, her infant fears  
In blue light.

In blue light  
We try to forget that we're shadows  
In blue light  
We're inhaling our darkness  
In blue light  
We're searching and hiding and kissing again  
In blue enlightened rooms.

Carry me there  
Through the warm air  
Where happiness holds on your body.  
What did you say? Your breath fades away  
Embraced by silence.

Shimmering blue light  
Touches them slight  
And the movement of their bodies.  
Hiding the tears, her infant fears  
In blue light.
