I'm drifting through the night
Between the young and blind
Can't name the things I'm desperately looking for
Benumbed I start to creep
Feels like an induced sleep
Will I escape this drunken weakness anymore

Only wish for something to remember
I'm aware you have a heart of glass
And I care for a while
You disclose the secrets of my temper
And find a way to oust the past
You swallow my tears
With your darkest smile

I move within the heat
Strange feelings that will lead
Close enough to reach out for another shore
Benumbed I start to creep
Feels like an induced sleep
Will I escape this drunken weakness anymore

Only wish for something to remember
I'm aware you have a heart of glass
And I care for a while
You disclose the secrets of my temper
And find a way to oust the past
You swallow my tears
With your darkest smile

Fill me up with dreams
Deliver strokes and pain
Vanish in the dawn
And driving me insane

Only wish for something to remember
I'm aware
You have a heart of glass
And I care for a while
You disclose the secrets of my temper
And find a way to oust the past

You swallow my tears
With your darkest smile
