Deliver hate
Deliver pain
I become insane
Me, my mind and brain

Look at me
Look at me
He offered violence to me
Offered violence to me
I sweat, I bleed
Is this what we need

The nightmare of your anger kills
My dreams, destroys my hopes

Is this what we need
Is this what we hate
Fearing, praying
Feeling and slaying

Breakdown
To deadlock
What can you see?
No extenuation
To set me free

Look at me
Look at me
He offered violence to me
Offered violence to me
I sweat, I bleed
Is this what we need

Is this what we need
Is this what we hate
Fearing, praying
Feeling and slaying
