Stood whispering soft as the vine curled her tendrils  
And I'll zephyr bloom cold the sulphurs of hell  
The horrent damaskt  
The nectar compliant to th'infernal yells  
As the serpent sly winding of evening nigh  
Usher the rose pastur'd with the blood  
In grieving nether gardens pursue to tempt  
Rumour next and chance,  
And tumult and confusion all embroill'd  
And discord with a thousand various mouths  
More of woe,  
In fumigating flavour  
Whom forlorn dwells henceforth  
To unfold and compell to abhor  
So flourish forth obscure threshold  
The horrent damaskt  
Of the infernal nectar in fumes  
Whence rushing all embalm'd horror  
And spake o'horrent throes to ruin the heavens  
At height of noon  
Prime orb obscured  
Impetuous what'soever shape  
Through evening thwarts when vapours fire  
To flesh,  
To bone  
You flow'ry arbours in radiant decay  
The horrent damaskt  
Of purple disease in vapours  
Eerie, eerie  
Bloom flaming damaskt  
The clouds rush to attend the firmament  
Twilight grey in sober mortandity clad  
Descant the beast,  
Whose darkening flames devour hesperian fruit  
"And of those demons that are found  
In fire, air, flood or underground,  
Whose power hath a true consent  
With planet or with element"  
Approach unpleasant silhouette  
Lie bestrewn unsmoothly mean  
In radiance ordain the damaskt  
Of graceful evening mild

Then silent night with charm  
Her solemn flairmoon  
And the ruined gems of heaven
