I feel your healing touch  
it might not feel like much  
but you're getting closer now  
much closer  
than I ever thought you'd be  
than I ever knew you to be  
dear Jesus  
oh heal me, heal me, heal me

don't want to leave this place  
see it streaming down my face  
all this pain is lost in the love I've gained

I feel my passion grow  
it started out so slow  
but you're getting closer now  
much closer  
than I ever thought you'd be  
than I ever knew you to be  
dear Jesus  
oh heal me, heal me, heal me

don't want to leave this place  
see it streaming down my face  
all this pain is lost in the love I've gained

crystal pool, blood so cruel  
shelter of love, - cloud fire  
mystery

don't want to leave this place  
see it streaming down my face  
all this pain is lost in the love I've gained
