

## **In This Moment "Blazin'"**

Visit "[Blazin'](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Let's blaze!

We just go into town and we've been driving all night.  
We've been gone for far too long now it's time for  
getting right.

So you know where to meet me an you know just what I  
need.  
So show me what I've been missing out on and why I  
shouldn't leave.

We're not gonna stop tonight we're gonna burn this city  
down.  
We're not gonna stop tonight we're gonna blaze till the  
morning sun.  
We're just now hitting the town and we're tripping off  
the streets.  
We've been driving all day an night tell me were you  
waiting for me.

So you know what's going down and you know just what  
I need.  
So show me what I've been missing out on and why I  
should believe.

We're not gonna stop tonight we're gonna burn this city  
down.  
We're not gonna stop tonight we're gonna blaze till the  
morning sun.
