...You're everything I want  
And I am everything you need  
This night is cutting in to me  
You tie me down, you watch me bleed  
And we risk everything  
Tonight

I, I am the misery you crave  
And you, you are my faithful enemy  
This hunger seems to feed on me  
Our secrets and our dying  
Risk everything

They can never know just what we've done  
And I can never know that what we've done  
They will never know all the blood we've she'd  
The spotted course we've led until the bitter end  
They can never know just what we've done

Nothing good will come of this  
I'm screaming out with my untaken breath  
I'll be yours until my dying day  
I can never see you bleed

We knew how this would end  
And we, we would die before we'd live  
But I'll never let you go!  
I will never let you go!

They will never know all the blood we've she'd  
The spotted course we led until the bitter end  
They can never know just what we've done  
(I will never let you go)  
They can never know just what we've done  
(I'll never let you go)

You knew how this would end
