

In This Moment

"The Rabbit Hole"

Visit "[The Rabbit Hole](#)" on MotoLyrics.com

Lavender clouds
Nothing matters here
Flying above
The ultraviolet sphere
And I will not look down
I am falling down the rabbit hole
Come so come with me and float
Into the never ending dream
We see God
In the morning sun
Touching the moon
Our birth has just begun
And I will not come down
I'm falling down the rabbit hole
Come so come with me and float
Into the never ending dream
