Don't Believe
Believe for the moment
Don't believe in life lines on my hand
Don't believe in ones who tell you fortunes
Take a trip to the promise land

(Chrous)
Hey Little Boy
Don't believe
There only lies, low down lies
Listen to me, don't believe
God has seen with your eyes,
I love you, don't believe
Don't believe

Don't believe in everlasting passion
Love just scams and love just goes
Love is just some kind of fashion
Valetines such as so and so

Chrous

Don't believe

Just let it be
Everything I say or do is just I feel for you
A little piece of my heart
Oh can't you see
And everything is a lie
And what I say is true
Don't wanna be apart (2x)

Don't wanna be apart...
