Like a dophin, in the sea
Always you, always be
Inside of me
Inside of me

Touch me with your gentle touch
Memories mean so much
Inside of me
Inside of me

You were the dream that I need so bad
The magic I never had
Your love could set me free

Tu tu tu tu tu tu

Take me to the golden sky
No more tears left to cry
Inside of me
Inside of me

A shooting star, a fantasy
Always be, always be
Inside of me
Inside of me

Fragile as every winter rose
And inside of me it snows
Your love could set me free

And if one day we meet again
Hold my breath, count to ten
Inside of me
Just you and me

Tu tu tu tu tu tu
