Graduate and move away  
Graduate and give away your name I saved myself for  
you  
That's not the way I operate  
Self medicate the day away and claim you  
Always made your moves like someone made them for  
you

I'm so out of breath I'm sure that I've expired  
I'm so out of touch with everything I thought

I knew I knew I knew I knew yeah  
I knew I knew I knew I knew yeah

Raise a toast to gracious hosts  
Get half the pain with twice the dose and hope you  
drown out their beliefs  
Like a muse we grow immune  
To the tune that's filling up the room  
Bursting through the seams penetrating everything

I'm so out of breath I'm sure that I've expired  
I'm so out of touch with everything I thought

I knew I knew I knew I knew yeah  
I knew I knew I knew I knew yeah

Busy painting on a straight face just to  
Hide those crooked teeth crooked teeth

I knew I knew I knew I knew yeah  
I knew I knew I knew I knew yeah

I'm so out of breath I'm sure that I've expired  
I'm so out of touch with everything I thought

I knew I knew I knew I knew yeah  
I knew I knew I knew I knew yeah
