"WARS ONLY WARS"

Visit "[WARS ONLY WARS](#)" on MotoLyrics.com

wars only wars wherever you're looking
wars only wars the whole world's shooting
wars only wars nobody's winning
wars only wars the next one's beginning

gods only gods
are hanging above us
gods only gods are laughing about us
gods only gods waiting for their chance
gods only gods take us in a trance
gods only gods to dance the last dance
gods only gods have the world in their hands

drugs only drugs
we're always drinking
drugs only drugs until we're sinking
down in the ground where our bodies are stinking
we're laying down while we are thinking
'bout wars and gods gods and drugs
drugs and wars wars only wars
