I see the light on my way
The City, which is not on map...
Reflections of his days
... on the mirror night sky

I'm
Drive leaving the time behind me
Want...
To the city midnight
To fly...
I already can't stop
In high
You and me will be always... wild!

Chorus: (all chorus female)
2night...
We're drivin' on highway
And shadows float behind us
Your holy dreams
Dissolve in starlight
And I'm mirrored in your eyes...

I look at your body
I feel our... desires so hot
And time is running so fast
As beats of my heart

I'm...
Breaking tonight the silence
Want...
With you the thousands of miles.
Feel...
Life on speed I adore
More...
More than ever before...

Repeat chorus:
