Do you have imagination?  
What will you do for me?  
Because I need... I want to see

Like your attractive body  
Awake eternal flame  
And "Midnight passion" be your name

Chorus: Come, feel the fire burning  
Come, feel this deep inside  
Come, feel the sleepless in this night

We are children of the future  
On roadway in moonlight  
Tonight our thoughts are intertwine

I like to feel obsession  
It's out of my control  
And I think now that you know

I catch your strong desire  
On my hot skin again  
And I don't want to see the end
