"Roadway In Moonlight"

Do you have imagination?
what will you do for me?
because I need ... I want to see

Like your attractive body
Awake eternal flame
And "Midnight passion" be your name

Chorus: Come, feel the fire burning
Come, feel this deep inside
Come, feel the sleepless in this night

We are children of the future
On roadway in moonlight
Tonight our thoughts are intertwine

I like to feel obsession
It's out of my control
And I think now that you know

I catch your strong desire
On my hot skin again
And I don't want to see the end
