Chorus: Your velvet heaven x 2

Stop the grayness in your mind
It's time to change us, it's time to realise
Feel the taste of bucks, through madness in your life
Try to feel the sins, which dance around us

Chorus: Your velvet heaven x 2

It's your velvet heaven x 1
Our velvet heaven x 1

Close your eyes and look inside
Leave all problems out and light this crazy ground
We can all everywhere, we stop a running time
Tell me two words about... say now: "The world is mine!"
