Do right, do right

Every time I say
Come closer my dear
I need you to be by my side

And every night I feel
You're driftin' away
Is there something
You're trying to hide?

I can tell what it means
That look in your eyes
'Cos I've seen it before
And it holds no surprise

(Do me right)
You've been holding me tight
But your mind's on the new girl in town

Now you know that you're lying
And there's no use denying
'Cos this is the time, baby

Do right
(Baby do right by me)
(Just want you to)
Do right
Baby do right by me

Bop ba dop bop ba dop bop ba dop
(Hey)
Bop ba dop bop ba dop bop ba dop

All that I need from you
Is that comes straight from the heart
You have to be cruel to be kind

And if I should lose you now
I may hurt for a while
But I'll leave all the sadness behind

Life's not always
The way that I want it to be
But given the choice
I would rather be free

(Do me right)
You've been holding me tight
But your mind's on the new girl in town

Now you know that you're lying
So there's no use denying
This is the time, baby

Do right
(Baby do right by me)
(Just want you to)
Do right
Baby do right by me

Bop ba dop bop ba dop bop ba dop
(Hey)
Bop ba dop bop ba dop bop ba dop

Do right
(Baby do right by me)
(Just want you to)
Do right
Baby do right by me

Do right
(Baby do right by me)
(Just want you to)
Do right
Baby do right by me

Do right
(Baby do right by me)
(Just want you to)
Do right
Baby do right by me
