I don't want to spend my life trying to change you
This time I'm gonna take it as it comes
There are so many things that I want to ask you
I am unafraid of what the answers may be

Before you walk away
And start burning any bridges
This woman's not the one you've knew
There's been so many changes

Please don't turn my love away
(Don't turn my love away)
I'm gonna love you like no one's ever done before
Oh please don't turn my love away
(Turn my love away)
I'm gonna show you a love like you've never known

We travel so many roads in a lifetime
In search of a promise
(Promise of a dream come true)
And now that I've found you
(Like a dream star falling from the midnight sky)
I've got to let you know

Before you walk away
And start burning any bridges
This woman's not the one you've knew
There's been so many changes

Please don't turn my love away
(Don't turn my love away)
I'm gonna love you like no one's ever done before
Oh please don't turn my love away
(Turn my love away)
I'm gonna show you a love like you've never known

(If only I knew then)
If I knew then what I know now
Babe I got no doubt that you'd be mine
(Baby got no doubt that you'd be mine)
No doubt in my mind you'd be mine

Don't you turn my love away
Don't burn no bridges baby
This woman's not the one you've knew
She's been through changes

Please don't turn my love away)
(Don't turn my love away)
I'm gonna love you like no one's ever done before
Oh please don't turn away my love away
(Turn my love away)
I'm gonna show you a love like you've never known

Don't you turn away, run away and leave me this way
(Don turn my love away)
Dont you turn away, dont you run away
Oh please don't turn my love away
(Turn my love away)
I'm gonna love you like never before

Don't you turn away, run away and leave me this way
(Don turn my love away)
Don't you turn away, don't you run away, please don't
run
Don't you turn away, run away and leave me this way
(Don't turn my love away)
Don't you turn away, don't you run away
