There's no song like a love song  
No love like true love  
No smile like the smile of a child

Be like a child  
Welcome each day one at a time  
Don't be a afraid

To say you're sorry when you're wrong  
Be a better you  
Be like a child

Be like a child  
Don't loose yourself in a world of cares  
Let yourself go

Oh, be happy and be loved  
Be a better you  
Be like a child

There's no song like a love song  
No love like true love  
No smile like the smile of a child

Be like a child  
Welcome each day one at a time  
Don't be a afraid

Be like a child  
Welcome each day one at a time  
And, don't loose yourself in a world of cares
