(Jean-Paul Maunick / Graham Harvey / Peter Hinds)
Sometimes I'm walking down the street, with my head
in the clouds
I can't see what stands before me, I can't feel the walls
around me
I'm lost in a daydream
A place where every child could be runnin' wild,
running free
It feels so natural, could it be possible for this to be?

Make a wish on a star, that our troubles won't last
forever
Now that we've come so far, I believe that we can make
it all the way

A place where everyone can feel love happiness
I know, can't be far away
Where every woman child and man need never be
oppressed
I know there will come a day

There will come a day, there comes a day, there will
come a day

Yes I've been down on my knees, with my head to the
sky
Hoping this world divided, will make a stand united
Oh happy day
We've seen the future within' the past, the price of
closin' our eyes
Let's turn this situation, with love and education
Let's find a way

Make a wish on a star, that our troubles won't last
forever

Now that we've come so far, I believe that we can make
it all the way

A place where everyone can feel, love happiness
I know, can't be far away
Every woman, child, and man, need never be

oppressed
I know, there will come a day
A place where everyone can feel, love and happiness
I know, can't be far away
Where every woman, child and man wont be oppressed
I know, there will come a day

There will come a day, there comes a day, there will
come a day
There will come a day, there comes a day, there will
come a day

We got to know and understand , we are vital to the
master plan
So get ready for the fight as we proceed into the light
Get ready for the fight, for what is right
