

Incommunicado "Progression"

You think you really want to quit the job?
'Cause you keep slipping away.
Keeping crisis into all of your agendas now?
'Cause you keep slipping away.
There's people you'd better drop to make some
differences.
Some people never learn to make the seconds count.
Pound for pound - I think there's people that you'd
better drop.
Now you'll never want to run away.

'Cause you keep slipping away.
You think life takes too long.
'Cause you keep slipping away.
I can't hear what I can't see.
Stop living, stop living the lie.
Don't take advantage of the ones you really think you
love.
'Cause you keep slipping away.
They won't appreciate the one you're really thinking of.
'Cause you keep slipping away.
