"A Shadow In The Dark"

Falling when I'm dreaming
Screaming while you're calling

Dying, I'm alone in the darkness
See me, there's nothing left for me

You are standing beside
And you see me wither
As I am closing my eyes
Repressing my mind

Out of this world to reveal me
Blinded by me not you

How could I lie
How could I ever deny
That the source of my pain
Is the source of myself

Slowly fading away
My ghosts they whisper
Reaching out for your hand
Am I all alone?

Hear me, I'm your friend in the darkness
I see you, a shadow in the dark
