Confusion seems to be your way  
My murdering is inconsequential  
Close your lovely, lying eyes  
Stay bride  
I'll guard your last meal  
Before your execution  
Your treacherous  
Dissatisfied face  
Will rot by hunger for lust

Let's stop talking all about  
That shit  
Let's fuck show me your  
Genitals  
The hunger for perversion  
Strikes back  
I'll break your personality  
You lie in a sheet of organic  
Juices

The plague of myself buried  
Among your bones  
I've got a present for you  
It's an overcrowded box  
With corpses of the new-born
