Hollow and frail
Frozen inside
With a faded smile
Left here to die

Faith is gone
Tied
What have we done

Don't wanna be just another
Don't wanna be a face in the crowd
Trapped in a hole, we are shattered
Dying and breaking away

Blackened by paper
The life in a cardboard
Abandoned by a raper
This nightmare is not a dream

All is gone
Why
What have we done

Angelic world
Fly with the doves
Leave this behind
And find your way home...
