A lost illusion hides my dreams
Lay down the curse - Of brutality
Darkness shines on filthy thoughts
Programmed to obey - Mystic fear
Fear will tear a world apart
Build up by human errors!
Forgotten love in a room without
Doors will lead you to the end!
Bestial lust - To destroy
Genetic power from the darkness of hell
Unborn dreams to rape a natural sign
Horrible nightmares to sick to

Dream, a puppet without a leader
Flesh is lovely
Love is guilty
Blood is art
Dreams made for children
A light without a lamp...
Dreams for children...
Love is guilty
Fade away
