Dreaming, living in  
A world of horror  
Sickness in your brain  
Mirrors of agony  
Show your own personality  
To control about  
Your feelings  
Listen to a voice  
Coming from inside  
Symphonies of Spiritual Cannibalism  
Symphonies of Spiritual Cannibalism  
Ice cold winters  
Desserts of ice

No emotions from yourself  
It seems to fade away  
Empty eyes starring  
In your mind  
Fear in every part  
Of your mind  
The clock runs faster  
Time stands still  
Schizophrenia  
From day to day
