(Song Has No Name)

Look around in our little paradise

Taste the innocent fruit

I'll bomb your brain away

There's power of technology

Which'll guard your human way

God is dead - Jesus crucified

And the pope will burn

On his gallow tonight

I can't believe this shocking truth

Can't look around - Can't open eyes

So taste just the freedom of

An forbidden youth

Everyday I walked through the streets

Bones instead of trees

Blood instead of water

A land which keeps on smiling

In the end of the book

Nobody wants to speak your dirty

Language

Nobody wants to hear your sadistic

Message

Questions build up - Never answered

More than just your god can see

So let's creep in the graves of our

Brothers and sisters

To forget an evil culture

4 "Raped By A Stranger"

Confusion seems to be your way

My murdering is inconsequential

Close your lovely, lying eyes

Stay bride

I'll guard your last meal

Before your execution

Your treacherous

Dissatisfied face

Will rot by hunger for lust

Let's stop talking all about

That shit

Let's fuck show me your

Genitals

The hunger for perversion

Strikes back

I'll break your personality

You lie in a sheet of organic

Juices

The plague of myself buried
Among your bones
I've got a present for you
It's an overcrowded box
With corpses of the new-born
5 "Chaos Ego"
Hunger, thirst, pain my
Veins
The horizon keeps on
Burning
The wind blows strong
Melodies fall into dust
A fog of sadness checkled
To my lonely skin
All illusions standing still
Raped chaos calls for
Manipulated stress
Is this my judgement or
My rebirth in heavens
Womb...
These time has been lost
All green has just been
Killed
My flesh for all mistrust
Blood on the ground
I start to understand

These deal has been made

These voice promised

Unknown

Tears change into time

My brain keeps in turning, I

Sink to the ground

The cries of the unborn

Sold, lost, and found...

Nails in my eyes for a life

Without pain

controlled emotions from

Mc Gillroy

Are burning insane...

6 "Identit"t"

Mindmelting sorrow - The eyes of the blind - See you

Everytime and everywhere you stay - A part of

Destructed illusions - Praying for your destiny

Your primitive tongue is torn in half - Wintergarden,

Summerdreams a cry without a sound - The murder

Of fatality tries to rip his life away - Corruption

And brutality for preachers without identity!!!

Trees lie in darkness - The truth sleeps in dust - The

Blind just can see - Greets to the master who's

Controlling me - Nails in y eyes for a life

Without pain - Pain controlled emotions from Mc

Gillroy are burning insane -

7 "Stories Enter Controlled Dept."

You are alone...

You've stolen the pastense

Out of my life

My aim is to conquer your

Filthy braincells

Show me - Your raw and

Violent reality

Show you - A part of my

Bloodsucking fantasy

Let's drink the wine and eat

The cakes

The thorns of forbidden

Flowers are the nails

For your place on my

Cross...

The principle of the elephants

Has been faded

Out of your eyes

Hang the murder - Reward

The thief

Idolise the pleasure

Behavioural disturbance

I'm the guider of your

Illusions

The extension of your fear

Is inaudible

Hear the tone of my voice

It means hate to you

Believe in your godless

Innards

Out of the cunt - Into the life

8 "The Brainerliminator"

(Instrumetal)

9 "Games Of A Moonmurder"

Good morning Mrs

Sunshine

Have you heard the

Latest news

The moon your

Eternal husband

Died between your

Lies - And my dirty

Truth

Last night I've

Been outside

Waiting for his

Light...

The stars told me

The story

He has been
Sacrificed
The lord of
Rottenness
Lay down his mystic
Cards
Now the smell of
Fear
Hangs deep in the
Trees
And fields are
Deserts of tears
Darkness and
Death stands near
By my side - Couldn't
Exist
Without his holy
Light
