when i woke up, i was proud so to see
you lying naked next to me
and the clothes you wore, the night before,
were lying on my bedroom floor and,
this is how i want it to be
you know it, i want it that way,

baby, i dont know what to say,
its like that every day, iv never felt this way, (yea, yea)
i just dont know what to do, if i cant be with you,
girl you know its true, i love that thing you do

seen everything i dreamt it all last night we did it in the
waterfall,
then you turned round, and i could see,
this beautiful simplicity,
this is how i want it to be,
you know it, i want it that way,

baby, i dont know what to say,
its like that every day, iv never felt this way, (yea, yea)
i just dont know what to do, if i cant be with you,
girl you know its true,

i love that thing you do(x4)
coz i love that thing you do (yea)

baby, i dont know what to say,
its like that every day, iv never felt this way, (yea, yea)
i just dont know what to do, if i cant be with you,
girl you know its true,
i love that thing you do

baby, i dont know what to say,
its like that every day, iv never felt this way, (yea, yea)
i just dont know what to do, if i cant be with you,
girl you know its true,

i love that thing you do(x4)
