

## **Busted** **"Loser Kid"**

Visit "[Loser Kid](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I was always picked last for teams,  
I wore my sisters jeans,  
I was a loser kid.  
And the teachers didn't care,  
They just left me sitting there,  
I don't know what i did  
But since then,  
Since then how the tides have turned,

Cos i used to be the loser kid,  
Who always ran away and hid.  
No one took the time to know me,  
The kick me sign was always on me.  
Now everybody wants to know,  
What I do and where I go,  
At least I know they wont forget me,  
Cos i live with miss mackenzie.

And now it's all history,  
And i put it all behind me,  
Look at what I've become.  
I get recognised in the street,  
And everyone i meet,  
Remembers the news I made.  
[bridge]  
But since then,  
Since then how the tides have turned,

Cos i used to be the loser kid,  
Who always ran away and hid.  
No one took the time to know me,  
The kick me sign was always on me.  
Now everybody wants to know,  
What I do and where I go,  
At least I know they wont forget me,  
Cos i live with miss mackenzie.

When i see the way you look at me,  
It takes me back to how it used to be.  
And still it's clear,  
The way you locked the classroom door,  
And whispered in my ear...

'you're what I go to school for',  
'you are'  
'the one I go to school for',  
[ad lib]

Cos i used to be the loser kid  
Who always ran away and hid  
No one took the time to know me  
The kick me sign was always on me  
Now every body wants to know  
What i do and where i go,  
At least i know they won't forget me  
Cos i live with miss mackenzie

Cos i used to be the loser kid  
Who always ran away and hid  
No one took the time to know me  
The kick me sign was always on me  
Now everybody wants to know  
What i do and where i go,  
At least i know they won't forget me  
Cos i live with miss mackenzie

Cos i used to be  
No one took the time to know me  
Cos i used to be  
No one took the time to know me
