Earth to Bella
You think you've got it all figured in
Earth to Bella
Everything you know is wrong (well almost)
Earth to Bella
I see where you are not listening
I bear the burden of being the voice that let's you know
We all grow old
And before you swim you've gotta be okay to sail

Earth to Bella
The world can be an unfriendly place
So hold your head up
And do your best to save some face
It's not so hard
Just undo yourself and see your second sun
Escape

Okay to sing
I'm okay to sing
I'm okay to sing
I'm okay to sing

Earth to Bella
I sense a quiet emergency
Earth to Bella
There's so much more to get, they're wrong

Earth to Bella
Wading water successfully
Or are you really?
Don't you want to see the deep?
It's not so hard.
Just forgive yourself and
Feel the water over you.
