I have waited, dined on ashes  
Swung from chandeliers  
And climbed Everest  
And none of it's stunned me  
Close to this

I've waited all my life  
If not when will I?

We've been good even a blast  
But don't you feel like somethings missing here?  
Don't you care?

I've waited all my life.

If not when will I  
Stand up and face the bright light?  
Don't hide you eyes  
Its time its time its time

No umbrellas or sunglasses  
Here and hallelujah everyday

I've waited all my life  
If not now when will I  
Stand up and face the bright light?  
Don't hide your eyes  
It's time it's time it's time  
It's time
