Visit "[In My Room](#)" on [MotoLyrics.com](https://www.motolyrics.com)

This party is old and uninviting  
Participants all in black and white  
You enter in full blown technicolour  
Nothing is the same after tonight

If the world would fall apart  
in a fiction-worthy wind  
I wouldn't change a thing  
now that you're here

your love is a verb  
here in my room (x3)  
yeah, love is a verb  
here in my room (x3)

you enter and close the door behind you  
now show me the world as seen from the stars  
If only the lights would dim a little  
I'm wary of eyes upon my scars

If the world would fall apart  
in a fiction-worthy wind  
I wouldn't change a thing  
now that you're here

your love is a verb  
here in my room x3  
your love is a verb  
here in my room x3

pink tractorbeam into your incision  
head spinning as free as dervish's wheel  
I came here expecting next to nothing  
so thankyou for being that kind of girl  
that kind of girl...x10
