Make up your mind
And Ill make up mine
Dont worry about me
Ill be fine
Those words that you said to me
Why wasnt I listening?
I wish I hadnt met you at all

I started thinking
Ill sit back, and relax
and wait for the morning

well wake up
well make up
and do this for the last time
well wake up
well make up
and do this for the last time
if we break well wind up
losing for the moment
so wake up, lets make up
and do this for the last time

make up your mind
and Ill make up mine,
dont worry bout me,
Ill be fine (Ill be fine)
the last time you yelled at me,
I swore that I heard you say
I wish I hadnt met u at all

I started thinking
Ill sit back, and relax
and wait for the morning

well wake up
well make up
and do this for the last time
well wake up
well make up
and do this for the last time

if we break up
well wind up losing for the
so wake up, lets make up
and do this for the last time
