Do you read me, mayday

Aeronaut to base

I confess I'm a mess

No egress

Alone, hovering in space

Is there anyone out there

Why the third degree?

Never knew

Until you

How silence could be so sonorous and deep

Wherever you are

Send out a flare

This is an attempt to connect,

Edify and dissect

Send a light

Send repair

From surface to air

Do you hear me, mayday?

I am in search of

But I'm caught in a knot

Goes to say

So below is as above  
Is there anyone out there?  
I am high and dry  
Suffering is a theme  
But reckoning is the only reason why  
We suffer at all  
To send out a flare  
This is an attempt to connect  
Edify and dissect  
Send a light  
Send repair  
From surface to air  
Is there anyone out there?  
Suffering is a theme  
But reckoning is the only reason why  
We suffer at all  
So send out a flare
