"The Warmth"

I'd like to close my eyes go numb
But there's a cold wind comin' from
The top of the highest high rise today
It's not a breeze 'cause it blows hard
It said it wants me to discard
The humanity I now watch the warmth blow away

So don't let the world bring you down
Not everyone is that fucked up and cold
Remember why you came and while your alive
Experience the warmth before you grow old
So do you think I should adhere to that pressing new
frontier
And leave in my wake a trail of fear
And should I hold my head up high?
And throw a wrench in spokes by
Leaving the air behind me clear

So don't let the world bring you down
Not everyone here is that fucked up and cold
Remember why you came and while your alive
Experience the warmth before you grow old

(before you grow old)
(before you grow old)
(before you grow old)

So don't let the world bring you down
Not everyone here is that fucked up and cold
Remember why you came and while your alive
Experience the warmth before you grow old

Before you grow old
Where did it go?
Where did it go?
Where did it go?
Where did it go...?
