I wanna taste your heaven  
You know I can't resist  
I feel it burning inside  
Just wanna taste your heaven

Hear no see no I speak no evil  
Not since the day you floated down from above  
You make a dead man walk upon the water  
Break down defences then you're praying for love  
What once was empty is filled with desire  
In the heat of your body I'm eaten alive

I wanna taste your heaven  
You know I can't resist  
I feel it burning inside  
Slide your body next to mine  
Can't wait to taste your heaven  
I feel it on my lips  
You pull me down to my knees  
Just wanna taste your heaven

You've been given the power and the glory  
I see it shining in whatever you do  
My crucifixion is standing at the altar  
Take my confession 'cause you know what to do  
Come on and touch me I've waited too long  
You can be my religion, my favourite song

I wanna taste your heaven  
You know I can't resist  
I feel it burning inside  
Slide your body next to mine  
Can't wait to taste your heaven  
I feel it on my lips  
You pull me down to my knees  
Just wanna taste your heaven

Just watch out angel, the devil's in town  
There will be no redemption when I'm going down
